

Transoft Solutions Appoints Steven Cheng as COO

FOR IMMEDIATE RELEASE

April 13, 2016 – Vancouver, BC, Canada

Transoft Solutions Inc., developers of innovative transportation engineering software solutions, is pleased to announce that Steven Cheng has been promoted to Chief Operating Officer. Mr. Cheng was formerly the VP, Software Development and Technology – a position he held since 2005.

Mr. Cheng joined Transoft in 1998 and brought with him over 10 years of software development experience as programmer, architect and manager. As Vice President, Software Development and Technology, he was in charge of all aspects of software development, technical support and quality assurance.

“Developing software in the field of Transportation Engineering and CAD environment have been most rewarding where I can apply the latest technology and methodology to produce innovative solutions for the global market,” said Mr. Cheng. “It is exhilarating to have the opportunity to broaden my horizon in the management of the overall operation of an entrepreneurial company like Transoft, solidifying its position as a leader in Transportation Engineering software.”

“I am pleased to announce the appointment of Steven Cheng as Chief Operating Officer,” added Milton Carrasco, President and CEO of Transoft Solutions. “I have had the pleasure of watching Steven, one of my trusted lieutenants, grow from a software developer to VP Software Development and Technology, overseeing a staff of over 30. In that time he has demonstrated his problem solving skills as well as implementing work processes that has contributed greatly to Transoft’s success. This promotion is an important demonstration that Transoft has the depth of management to steer it well into the future. On behalf of the rest of the management team at Transoft, my sincere congratulations to Steven!”

About Transoft Solutions

Established in 1991, Transoft Solutions Inc. develops the most thoroughly researched and innovative CAD software for the transportation engineering community. Transoft Solutions’ suite of innovative and productivity enhancing software have become the trusted de-facto standard for over 90% of the Top 100 AEC firms (ENR), 85% of North American departments of transportation, and numerous global regulatory agencies. The company serves over 30,000 users worldwide through its offices in Richmond, BC, Canada, Rotterdam, Netherlands, Sydney, Australia, Gothenburg, Sweden, Bangalore, India and other dedicated agents and resellers around the world. Providing design solutions for roads and highways, airports, light rail transit, and highway signs, we give transportation professionals the tools they need to design with confidence.
